Professional Summary

Experienced **Java Developer** with 4 years of experience specializing in scalable **microservices** and **REST API development** using **Java, Spring MVC, Spring Boot, and Hibernate**. Strong understanding of **OOP principles**, with proven analytical and problem-solving skills for designing robust, high-performance architectures. Skilled in **relational databases (MySQL, Oracle)** and integrating **third-party APIs** across multiple domains. Familiar with **Agile/Scrum** methodologies and has foundational knowledge of **NoSQL databases (MongoDB, Redis)**.

Technical Skills

Languages: Java (8–17+), SQL

Backend Frameworks: Core Java, Spring Boot, Spring Security, Hibernate, JPA

Databases: MySQL, MongoDB, Redis

DevOps Tools: Docker, Jenkins, CI/CD Pipeline

Build & Deployment: Maven, Apache Tomcat, Git, Linux

Architecture & Concepts: RESTful APIs, JSON, Microservices, RabbitMQ

Design Patterns: Singleton, SOLID, Builder, MVC, Dependency Injection and API-Gateway.

Programming Concepts: Object-Oriented Programming (OOP), Exception Handling, Debugging

Experience

Java Developer | Wemonde Pvt. Ltd. Feb 2024 – Oct 2025

- Development for multiple enterprise applications and websites, delivering scalable and efficient architectures for clients including **PVR INOX Pvt. Ltd., Movietime, Cinescape Dubai, and Ergodemy**.
- Implemented **request-level caching** using **Redis**, significantly improving performance and user experience.
- Integrated **third-party booking engines** (Vista, Showbiz) and **payment gateways** (Razorpay, Juspay, Paytm).

- Designed and developed a **loyalty-based point system** for **Finolex**, enabling users to earn and redeem points seamlessly.
- Utilized **Microlithic architecture**, **REST APIs**, schedulers, and **mail/messaging providers** for system optimization.

Junior Java Developer | PRP Services Pvt. Ltd. Sep 2021 – Jan 2024

- Contributed to key application modules such as **LMS (Lead Management System)**, **WhatsApp Campaigner**, **Chatbot**, **Longcode**, and **Water Bill Generation System**.
 - Supported backend infrastructure development and maintenance, ensuring stability and scalability for growing user demands.
 - Developed clean, well-documented, and tested code while adhering to coding standards and participating in **peer code reviews**.
 - Provided **technical support** for production issues, ensuring quick resolution and maintaining user satisfaction.
-

Education

Bachelor of Computer Applications (B.C.A) 2018 – 2021
IIMT Group of Colleges, Greater Noida

Achievements

- **Implemented Docker** for project deployment, replacing manual file transfers with containerized automation.
- **Automated application deployment** on Linux servers using Docker, improving deployment efficiency and reliability.
