Sujit Kumar

+91 7079692670 || kumarsujeet31680@gmail.com || https://www.linkedin.com/in/sujit-yadav-b153811b0/

Experienced Java Developer with 4 years specializing in scalable **microservices** and **Rest API** development using **Java, Spring MVC, Spring boot** and **Hibernate**. Leverages excellent **OOPS** understanding and strong analytical skills to design robust architectures. Experienced with relational databases (**MySQL/Oracle**) and integrating third-party solutions across diverse industries. Familiar with **Agile/Scrum** methodologies and possesses foundational knowledge of frontend technologies (**Angular, JavaScript, HTML**) and NoSQL (**MongoDB, Redis**) databases.

EXPERIENCE

JAVA DEVELOPER | WEMONDE PVT LTD | Feb 2024 – PRESENT

Leding the development and management of diverse application and website backends, ensuring the delivery of scalable, efficient, and robust architectures for notable clients, including **PVR INOX Pvt Ltd**, **Movietime**, **Cinescape Duba**i, and **Ergodemy** applications.

- Implemented request-level caching using app-level caching using **Redis**, optimizing performance and user experience.

- Integrated third-party booking engines such as Vista and Showbiz, along with various payment gateways like **Razor Pay**, **Jus Pay**, and **Paytm APIs**.

- Innovated a point-based loyalty system for **finolex**, empowering users to earn and redeem loyalty points.

- Leveraged Microlithic Architecture, REST APIs, JSP pages, relational databases, schedulers, and messaging/mail providers.

JUNIOR JAVA DEVELOPER | PRP SERVICES PVT LTD | Sep 2021 – Jan 2024

Contributed to the development of key modules for a core application suite, including an **LMS** (Lead Management System), **WhatsApp Campaigner**, **Chatbot**, **Longcode**, and a **Water Bill Generation system**.

- Supported the development and maintenance of the application's backend infrastructure, focusing on ensuring its smooth operation and scalability to handle increasing user demand.

- Wrote clean, well-documented, and tested code for multiple application modules, adhering to established coding standards and contributing to a maintainable codebase.

- Actively adhered to established coding standards and best practices throughout the development lifecycle, ensuring full compliance with development processes, coding guidelines, and participation in peer reviews.

- Provided technical support to assist in the resolution of customer-reported issues, contributing to overall application quality and user satisfaction.

SKILLS

Java 8	Spring Boot	Hibernate	JPA Maven
RESTful Apis	JSON/XML	Git	Debugging
SQL	OAuth	Html	SourceTree
AWS Bucket	Jenkins GCP	CI/CD Pipeline	Docker
Angular	Bucket	Soap Apis	MongoDB
Programming (OOP)			

EDUCATION

B.C.A 2018 - 2021 | IIMT GROUP'S OF COLLEGE GREATER NOIDA

ACHIEVEMENTS

Implemented Docker for deployment of projects. Previously projects were deployed completely manually by transferring files.

Moved UI from JSP to Angular .

Automated application deployment on Linux servers, replacing manual processes with Docker containers
